🌐 Eco Laboratories Pvt Ltd

We take this opportunity to introduce ourselves as Eco Laboratories Pvt Ltd, a premium service provider for Consumer Products Testing in India.

Eco Laboratories was set up to provide an AZO Testing service for the FIRST TIME in India, in June 1995.

Slowly and steadily, Eco Laboratories maintained a strong position in the international scene by the addition of highly sophisticated equipment like ICP-MS and LC-MS to offer RESTRICTED SUBSTANCE TESTING SERVICES to satisfy the needs of exporters/retailers in Europe, USA, Canada, Middle East... etc.

Presently, we have a full-fledged RSL testing and R & D lab in Mumbai with a branch at Tirupur for Physical Testing to provide timely and satisfactory service to its customers in a most professional manner & are NABL accredited as per standard ISO/IEC 17025.

Today we provide accurate ppm/ppb level analysis of restricted ecological parameters to meet global norms in dyes, apparel, home furnishings, leather goods and toys. We are one of the few labs that can test for the most recent Reach updates to the regulations in Europe.

With collection centers in Delhi, Bangalore, Agra and overnight urgent pick up services in other areas, we cater to all over India, including Kolkata, Chennai, Kanpur, Ludhiana, etc.

COMPLIANCES

**REACH (SVHC, ANNEX XVII ,
Entry 72) for Europe**

SASO SABER for SAUDI

CPSIA for US market

PROP 65 for Canada

GOTS

ZDHC

ROHS

OTHER OFFERINGS

- Training for Eco parameters as per EU and US norms
- RSL/Quality manual for clients
- Inspection services

CHEMICAL TESTING

- AZO Amines (Cleaved and Free)
- Formaldehyde
- Chlorinated Organic Carriers
- PCP & Chlorinated phenols
- Disperse Dyes
- Carcinogenic Dyes
- SCCP & MCCP
- AP/APEO
- Phthalates
- Heavy Metals
- MEK, Dimethyl formamide
- Preservatives
- VOCS
- Specific migration of HM
- Short chain aldehydes
- Chromium VI
- Quinoline
- D4 ,D5,D6 Siloxanes
- PFOA / PFOS
- Toluene Diisocyanates
- Bisphenol A
- Dimethyl fumarate
- Permethrin
- Polyaromatic hydrocarbons (PAH)
- Polychlorinated biphenyls (PCBs)
- & Many More

PHYSICAL LAB TESTING

- Appearance after washing
- Shrinkage after washing
- Cf to perspiration
- Cf to rubbing
- Cf to washing
- Cf to light
- Tear strength
- Spirality
- pH
- & Many More
- Tensile strength
- Bursting strength
- Count
- Construction
- GSM
- Fiber composition
- CF to saliva
- Cf to chlorinated bleach
- Cf to Water
